Repeat Row

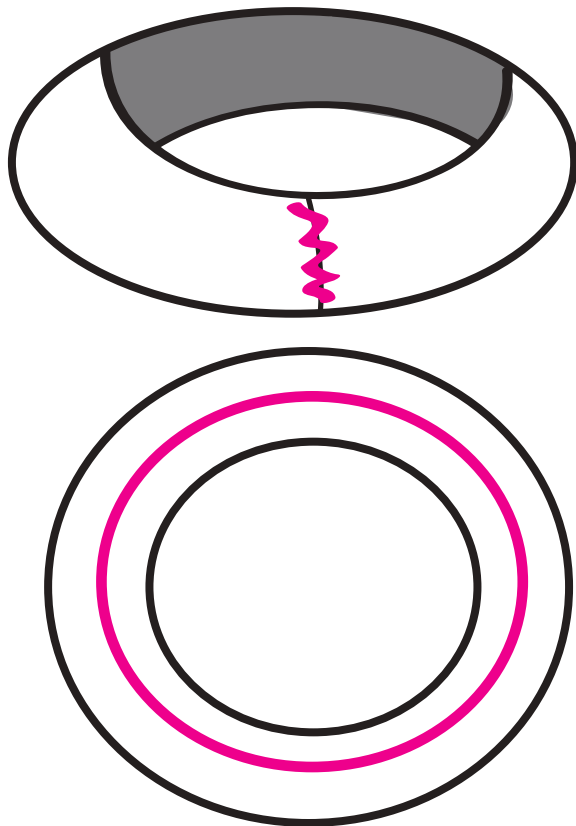

Ch 3 (counts as first dc), turn work, skip first dc, dc into the top of every dc until end.

18 dc worked including the turning ch3.

Wreath Cover

Work the REPEAT ROW 7 times with White Yarn and C1.

Then work the REPEAT ROW 8 times each with White Yarn and Contrast Yarn in this color order: C2, C3, C4, C5, C3, C2, C1, and C5. You will have 9 different sections of colors of 8 repeats each. Your fabric should be roughly 6" by 43" unstretched. If you don't have quite enough length, just add a couple more REPEAT ROWS until you do in the White Yarn and C5.

Whipstitch or Slip Stitch

Both the short ends together to form a ring. Then stretch to fit around the wreath form. Whipstitch or Slip Stitch the long sides together to completely cover the foam wreath. **PINK LINES** show whipstitch/slipstitch edges.
